NEWS RELEASE

November 5, 2013

Contact: Cheryl Ford, Engineering/Public Works Department, 337-8559

Street Maintenance of Various City Streets

The Branson Public Works Department is working with APAC-Missouri to perform maintenance on city streets throughout the month of November, 2013. The work began Monday, November 4 and could run up to 30 days, depending on the weather. Work crews will mill and overlay various city streets including some key intersections in Branson. Slight delays may be experienced by drivers through these construction zones.

Please be aware of traffic cones and construction workers. Some of these roads are located in residential areas, and residents are asked to avoid parking their cars on the street in these areas until work is complete. The contractor will also be delivering instructions to all affected households, letting them know when the work on their street will be performed. Affected streets include:

- Shepherd of the Hills Expressway (State Hwy. 76 intersection including signal loop repair).
- Gretna Road (Roark Valley Rd. Bridge to State Hwy. 248 including signal loop repair).
- Gretna Road (State Hwy. 76 intersection including signal loop repair).
- Branson Hills Parkway Town Center Drive to Home Depot
- Judy Street (State Hwy. 76 to Sheryl St.)
- Little Pete's Road (State Hwy. 76 to Trotter St.)

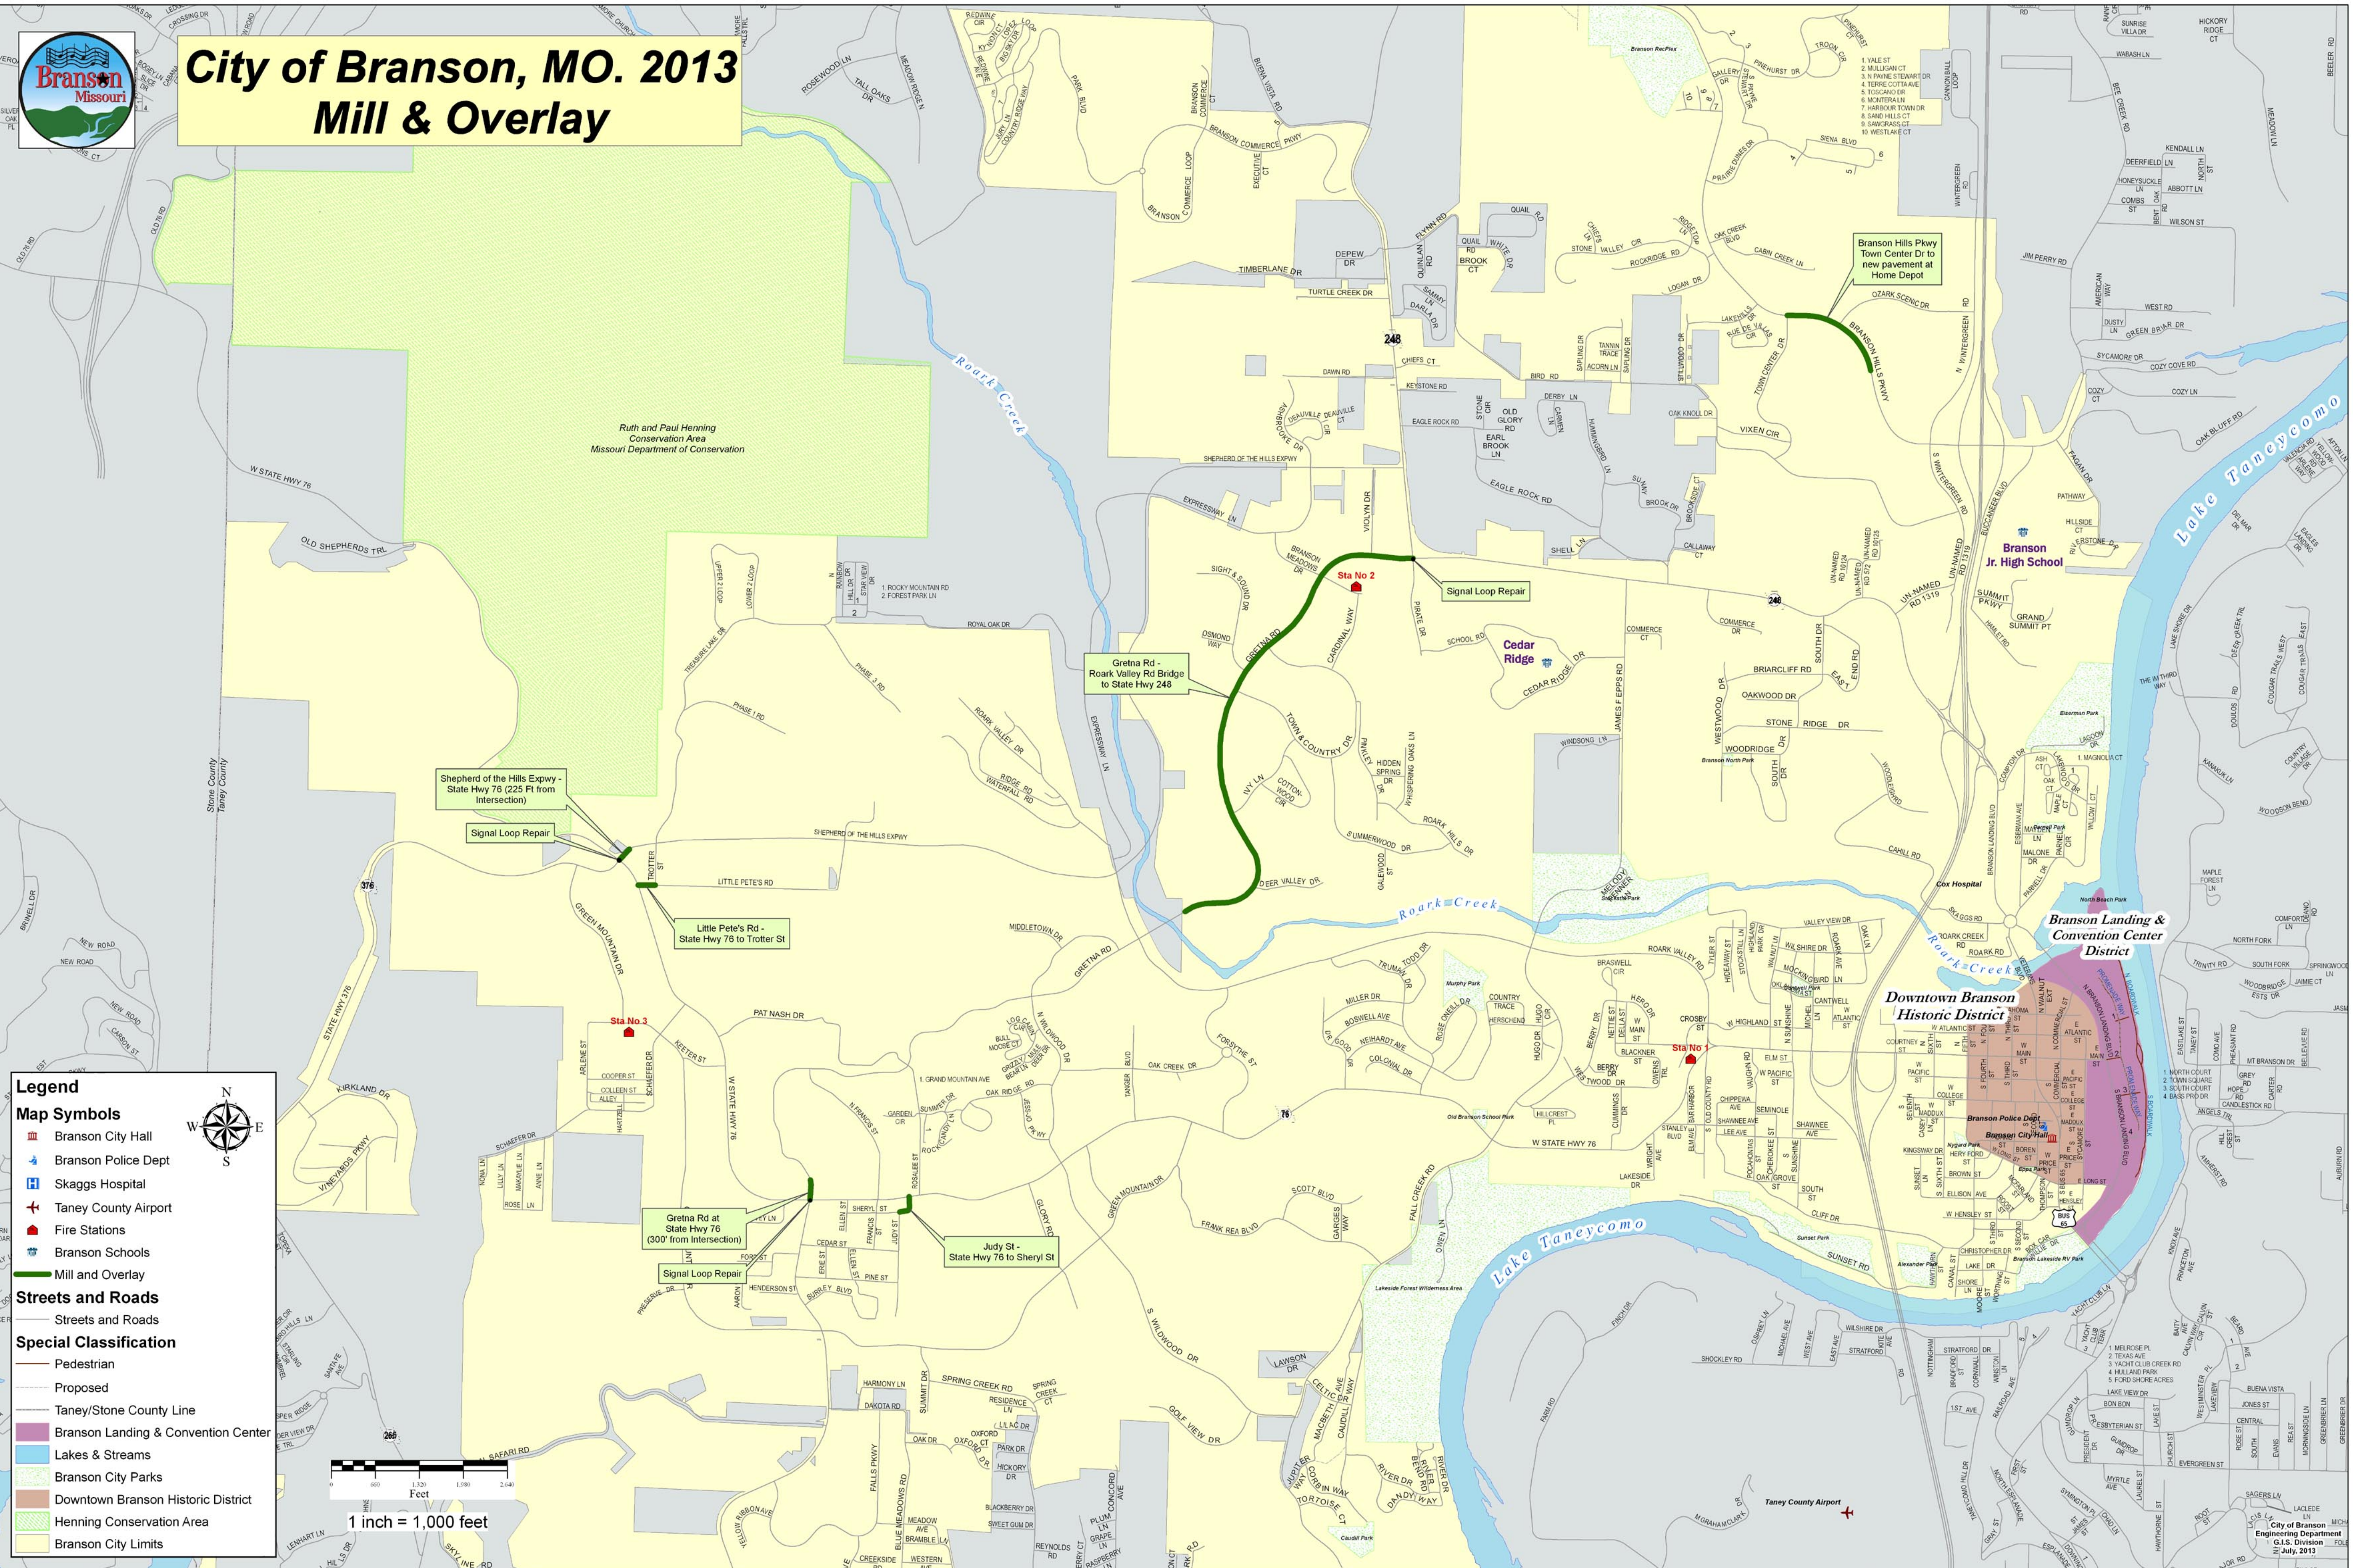

The Public Works Department is also working with Donelson Construction Company to install thermostripping and directional arrows on James F. Epps Road. Dependent upon the weather, this work will begin on Tuesday, November 12th through 14th. Traffic through this construction zone will be delayed intermittently.

A map of the affected streets can be viewed on www.BransonMo.gov, under the City News heading.
